Dr. Aaron Novick
Department of Biophysics
University of Oregon
Eugene, Oregon

Dear Aaron:

I am enclosing a copy of the paper I had prepared for Nice. I'm not too happy with it in its present form but have been greatly rushed and this is as far as I could go in the time. I hope to give it some careful editing during the next two or three weeks before it goes into the proceedings.

Do you think it would be appropriate for the Bulletin in essentially its present form? I will send you a copy of the final revision; meanwhile your comments will be welcome. I know that the paragraphing and the general structure of the paper need a lot of attention.

Why not try to get Alpatov or Jerusalimski to write you an article?

As ever,

Joshua Lederberg
